Summary

Results-driven **Senior Frontend Engineer** with 9+ years of experience delivering enterprise-grade web and mobile applications. Specializes in **Vue.js**, **Angular**, and **React**, with deep understanding of modern frontend ecosystems including SSR (Next.js/Nuxt.js), state management, component-based architecture, and design systems. Proven track record of leading UI development, improving user experience, and implementing secure, scalable solutions. Passionate about code quality, UX, and team collaboration.

Experience

Senior Frontend Engineer

Majid Al Futtaim — June 2022 – Present

- Integrated Auth0 SSO with Vue.js to unify identity management across all business units.
- Developed SSR-ready web applications using Next.js (React) for enhanced performance and SEO.
- Integrated Infobip APIs for real-time communication and SMS workflows.
- Converted Figma designs into production-ready responsive UIs.
- Delivered new features, optimized performance, and resolved critical frontend issues.

Frontend Engineer (Lead)

TARJAMA Jan 2021 – June 2022

- Led frontend development for a smart translation platform, including a custom spell-checking system to enhance translator workflows.
- Built responsive UI using Vue.js, Tailwind CSS, and PrimeVue.
- Improved UX across multiple applications and optimized component performance.
- Worked closely with product and design teams to translate mockups into functional UIs.
- Mentored junior frontend developers and reviewed pull requests.

Front end Developer

ESKADENIA Software — Nov 2018 – Jan 2021

- Developed Angular-based applications using **Bootstrap**, **Angular Material**, and **PrimeNG**.
- Led a team of 3 developers on client-facing projects, ensuring timely delivery and code quality.
- Integrated RESTful APIs and enhanced system UX/UI consistency.
- Delivered multiple customer-requested features across government and enterprise portals.

Web Developer

Clearmove (Startup – Abu Dhabi) — Jun 2016 – Nov 2018

- Built dynamic web apps using AngularJS.
- Collaborated directly with VP Engineering to meet product milestones
- Led third-party integration efforts for shipping, relocation, and logistics solutions.
- Provided technical support and maintenance for legacy applications.
